Subject: Fw: Thank-you!

Thought you'd like to see this! Thank you both. I couldn't have answered Ramona's questions.

Only four types of organizations need to worry about data quality:

Those that care about their customers,
Those that care about profit and loss,
Those that care about their employees, and
Those that care about their futures.

— Thomas C. Redman (2006)

Your presence on the call today added so much value to the briefing! Thanks for participating and if we do this again I hope we can give you more than a couple hours of notice. As you might imagine, for those of us preparing the briefing materials, there was an initial focus on the ORD HF study. But clearly, Ramona was interested in Pavillion and Dimock, too.

Lora Johnson,
Director of Quality Assurance, ORD
